Toni is Australia's most experienced Iridology teacher, researcher, and lecturer. With more than four decades of clinical practice and over 30 years of dedicated research, Toni is widely regarded as a foundational voice in modern Iridology education. Since beginning her teaching journey in 1983, Toni has trained generations of practitioners, helping them move beyond memorization into true understanding, clinical reasoning, and practical application.

Founder of the College of IRIS, the only school in the Southern Hemisphere dedicated exclusively to Iridology education. When teaching for the Southern Cross Herbal College, she wrote the first Iridology course granted diploma status by the Australian Traditional Medicine Association.

Her graduates are known for their confidence, discernment, and integrated understanding of Iridology within holistic health practice. Calm, precise, and deeply experienced, Toni brings authority without dogma—offering students and audiences alike a sense of trust, continuity, and respect for the intelligence of the human body.
